

[Note: The full seminar text content generated earlier would be here. For simplicity, I'm putting a placeholder. In production, you'd read the full text content from your previous message.]

Business Forecasting using AI for Strategic Planning in Startups

...

Acknowledgment:

We would like to express our sincere gratitude to our faculty, mentors, and all contributors who guided us throughout this project.

Sanjil Kokare led the technical modeling and analysis, while Devansh Vashist focused on the theoretical, business, and strategic insights.
